She was copied on the inquiry I referred to HQ.

Ex. 5 DP / Ex. 7(A)

Wheeler got a question on this at the press conference... he just replied with no comment on potential enforcement actions.

Thanks for looping me in, Bill.

I'm adding my EPA email address to this chain since it is up and running now.

I'm not sure who received this. Our usual reply is "EPA does not comment on potential on ongoing enforcement actions."

Do you all want to handle (or have you already)?

**Subject: HuffPost
inquiry // President
Trump on San
Francisco and Los
Angeles**

Hello,

President Trump said this evening that the EPA would soon be giving Los Angeles and San Francisco a "notice very soon" for an environmental violation related to the city's homeless populations, specifically mentioning used needles flowing into the ocean.

Can the EPA provide more context about what violation the agency plans to issue to the two cities, when it would be issued and what kind of enforcement efforts the agency would mandate?

Thank you,

--
